## ABOUT ME

I'm a passionate and skilled Full Stack Web Developer with a solid understanding of web development technologies. I love building creative and user-friendly web applications. My broad skill set allows me to contribute to all stages of development, from design to deployment. I'm excited to use my expertise to make a meaningful impact and keep growing in this field.

## EXPERIENCE

### Frontend Developer

#### Wealthgram LLP

📅 07/2023 - 09/2023 📍 Kolkata, West Bengal

Specializing in web development and front-end design, focusing on creating seamless user interfaces and implementing innovative solutions for optimal user experience.

## PROJECTS

### Rental Cab Service

Developed a web application enabling user and driver registrations, car search, ride booking, and scheduling features.

**Tech Stack:** React.js, Redux, Node.js, MySQL.

[Source Code](#)

### Food Delivery Web App

Developed an online food delivery web application enabling users to search for locations, meal types, and restaurants. Implemented features for filtering by price range and meal type, sorting by price and rating, and integrated payment services like Razorpay and Paytm.

**Tech Stack:** React.js, Node.js, Express.js, MongoDB.

[Source Code](#)

### React Portfolio

Created a portfolio web application using Create React App. Implemented development, testing, and production build scripts, enabling smooth development and deployment processes.

**Tech Stack:** React.js
